

ULI Geoforum

National activities and news

Est GIS meeting 14 october 2016

Susanne Nellemann Ek, VD och kanslichef ULI Geoforum

All our members work for
increased and broader use of
geographic information and
geographic IT – for an effective
and sustainable society

Chairman, Vice chairman and Board

STYRELSEN

I ULI Geoforums styrelse sitter personer från olika typer av organisationer som är medlemmar i föreningen.

Ordförande
Elisabeth Argus
VD, BonaCordi AB

Vice Ordförande
Lennart Sjögren
Ägare, Analys och
utveckling AB

Annika Hermodsson Hyltén
Teamchef, Esri Sverige AB

Eric Jeansson
Göteborgs stad

Nils Larsson
GIS-samordnare,
Stockholms läns landsting

Eva Nord
Lantmäteriet

Lars-Kristian Stölen
Avdelningschef, SGU
Sveriges geologiska
undersökning

Stefan Svanström
GIS-expert, SCB

Sofia Stjernlöf
Sektionschef, Lantmäteriet

Verksamhet

Branschens röst

Mötesplatser

Branschnyheter

- We work with advocacy in the areas that are at the top of the agenda for our members: Competence to our sector, open geodata and digitization
- We are the meeting point for skills, intelligence and exciting and unexpected meetings
- With an independent platform we stand for objective and fact-based information to the GIS and Geodata sector and to the outside world

"What is the potential of open data?
We need a Swedish study "

Ardalan Shekarabi, civilminister

2016

Socioeconomic study
of the value of open
geodata

The research project has a budget of SEK 600

Very little research has been done and we expect international interest.

EHFF INSTITUTE FOR ECONOMIC AND
BUSINESS HISTORY RESEARCH

What the study provides answers to?

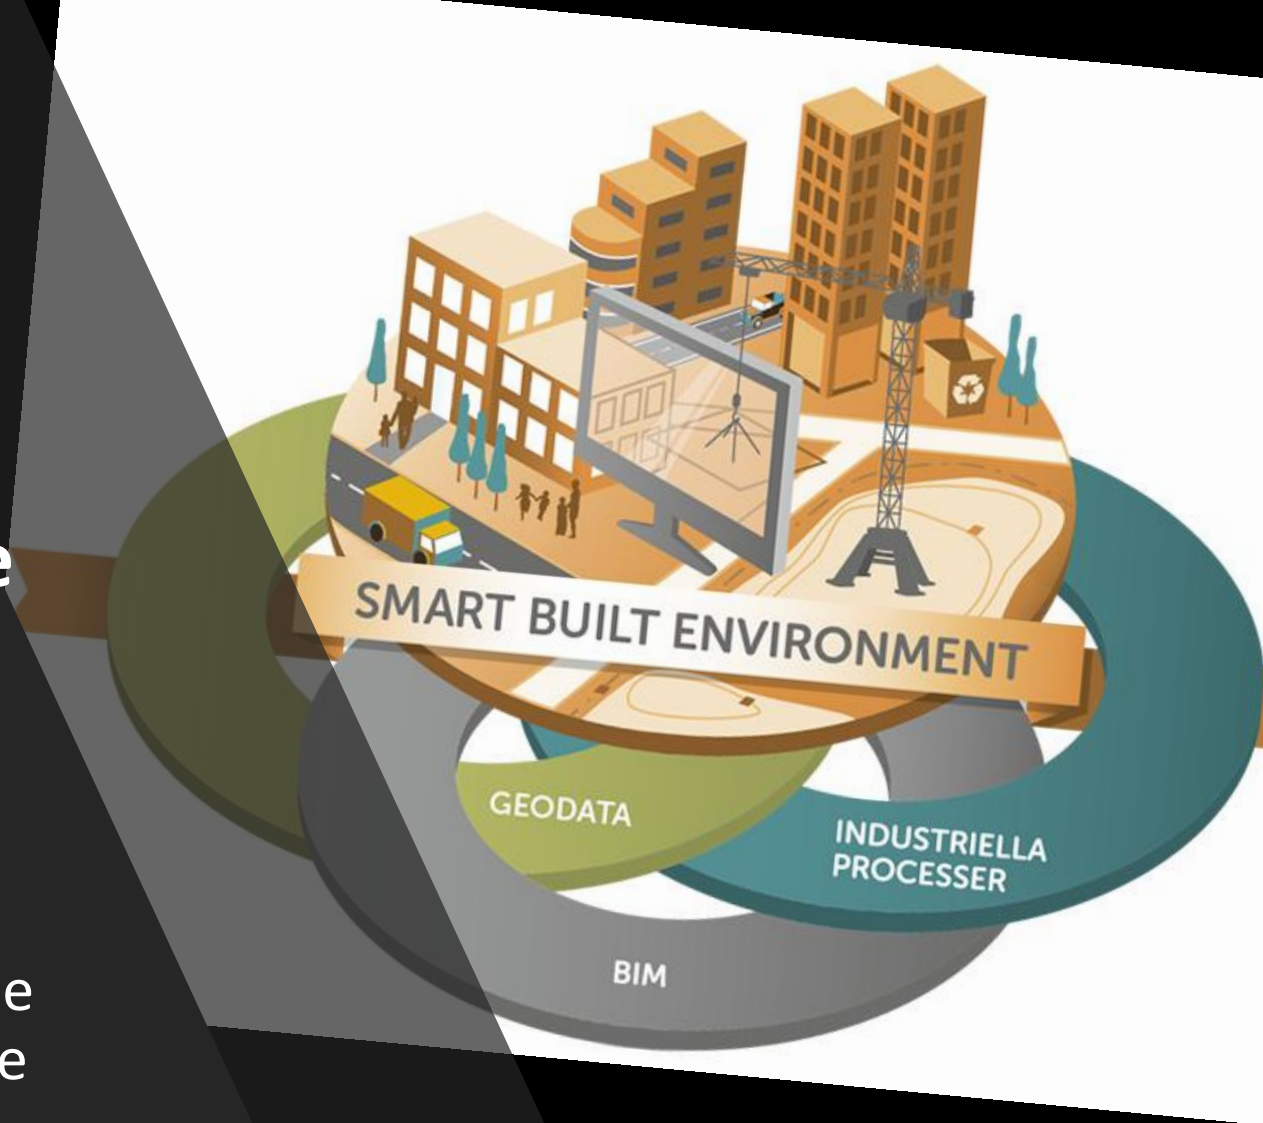

The study provides a basis for the relative safety to rule on the order of benefits and costs of opening geodata

and can then thus serve as a basis for decisions.

Smart Built Environment – a Strategic Innovation Programme

The unique feature of the programme is the integration of BIM, GIS and Industrialized Construction;

which increases our capacity to leverage all the possibilities of digitalization as well as to tackle the pressing challenges of society

Conferences 2016

- Work smart in planning and constuction – GIS and BIM
- Geoforum, 4-5 october
- The value of open geodata, 15 november
- Efficient data collection with drones, 30 november

Conferences 2017

- * Work smart in planning and constuction – GIS and BIM, 7-8 may
- * Nordic conference on geodemographics, 22-23 may
- * Smarta städer 2017, Kistamässan 15-16 nov 2017
- * Efficient data collection with drones ?

Conferences 2018

- Thematic conference - GIS and Health
- Geoforum 
- Efficient data collection with drones
